Advancing Resilient Agricultural Systems

PAGE 3

Congratulations to the students who are recipients of this year's Gerald O. Mott Meritorious Graduate Student Award in Crop Science. This annual award recognizes top-notch graduate students pursuing advanced degrees in crop science disciplines. Departments select students based on academic achievements, research and teaching contributions, leadership accomplishments, service activities, and personal qualifications. Multiple students from one school may be recognized as these students represent their departments.

The award is named for the first CSSA President, Gerald O. Mott, who trained 75 graduate students during his 45-year career at Purdue University and the University of Florida. Many of his students have become eminent forage scientists in the United States and Latin America. The award is offered by CSSA.

Swas Kaushal Plant Science South Dakota Stat University

Sarah Kezar

Ramandeep Kumar Sharma Department of Plant and Soil Sciences Mississippi State University

Josefina Lacasa Department of Agronomy Kansas State University

Franklin Linam Department of Plan and Soil Sciences
