Request for proposals: 2026 National Indicators Report Biodiversity Chapter

March 10, 2026

Field to Market: The Alliance for Sustainable Agriculture is [requesting proposals](#) for expert authors to develop the biodiversity chapter of its 2026 National Indicators Report, which evaluates environmental outcomes across U.S. commodity agriculture. The selected researchers will conduct a comprehensive scientific review of biodiversity trends and impacts related to crop production and assess a proposed new biodiversity metric with proposals due Mar. 20, 2026.
