Join us on August 18 for the webinar "Intentional Decision Making" and on August 27 for the webinar "The High Cost of Inefficient Nitrogen: Solutions for

Profitability and Sustainability." Learn more.

Intentional Decision Making

Tuesday, August 18, 11 am–12 pm CDT

Navigate difficult decisions through a new way of approaching choice that does not ignore emotion, identity, or sacrifice.

Learn how to move forward with clarity, capacity, and confidence when there are no easy options for making a decision.

Webinar brought to you by the ASA, CSSA, and SSSA Women in Science Committee.

All are welcome to join and learn new strategies to enhance their decision-making skills.

Rishma Walji

*Presented by **Dr. Rishma Walji**, Naturopathic Doctor, Ph.D., and a leading expert in intentional decision making*

The High Cost of Inefficient Nitrogen: Solutions for Profitability and Sustainability

Thursday, August 27, 10 am–11 am CDT

Sponsored by Yara North America

Explore why nitrogen form matters and how it influences availability, loss pathways, and crop uptake.

Gain insights into how better nitrogen decisions can improve nutrient use efficiency, drive more consistent crop performance, and support more sustainable farming systems.

Presented by Markus Braaten, Senior Technical Agronomist, Yara North America, and Erika Wagner, Climate Choice Business Development Manager, Yara North America

Markus Braaten and Erika Wagner.
