Sustainable Agronomy Conference Returns for Its Seventh Year!

Virtual Four-Week Series This Summer Offers Free Registration

March 11, 2024

ASA will host the seventh annual Sustainable Agronomy Conference this July! The conference will take place over a period of four weeks starting Wednesday, July 10, with one two-hour session broadcast live each week. Topics include precision ag technology, soil salinity, the role of fertilizers in the food industry, cover crops and soil health, and integrated pest management. More details to come! Meanwhile, mark these dates: July 10, 17, 24, and 31 from 11 am to 1 pm U.S. Central Time.
