Science Societies

# Submit an Abstract, Host a Tour or Workshop

March 20, 2024

---

**Submit an Abstract**

Share your science and submit an abstract to present at our 2024 International Annual Meeting, November 10–13 in San Antonio, TX.

All scientific abstracts are accepted!

Gain presentation experience and professional recognition among premier agronomic, crop, soil, and related science professionals. Your efforts will expand your CV/vita, disseminate information for all to succeed, and foster lasting collaborations with your peers.

Don’t have the detail you need to submit an abstract? No problem! Abstracts at this point are simply “holding slots” that reserve your spot in the desired session. Submit now and update later!

Submit by June 20 to save. **Visit** acsmeetings.org/submit **for more information**.

## Host a Tour or Workshop

Take your membership to the next level, and share your expertise, passion, and connections by hosting a professional tour or workshop at the Annual Meeting.

Tours provide an opportunity to connect with a group of like-minded peers while exploring unique agricultural aspects of the greater San Antonio area. Tours are typically developed by local experts who have the know-how and connections to show off the best the area has to offer. Whether it’s back-of-the-house access to local industry and attractions, or personal hands-on experience in the fields and waterways, you’re bound to teach your colleagues something new and make lifelong connections in the process.

Workshops provide an opportunity to advance your colleagues’ skills in the latest technology and trends in the industry via hands-on experience. Organized and led by experts in the field, workshop programs are developed to enhance attendee’s skills, and attendance is limited to ensure a personalized experience.

Submit ideas by April 5. **Visit** acsmeetings.org/submit special sessions **for more information**.
