Webinar: Growing Your Career in Soil Science and Planetary & Space Sciences

April 11, 2025

Join us for an online panel discussion exploring career opportunities at the intersection of soil science, agronomy, and planetary science. This session will provide students, early-career soil scientists and agronomists with insights into how their skills can be

applied in space research, offering a pathway to the rapidly growing field of space science.

Date and time

Wednesday, Apr. 16, 2025 from 12:00–1:00 pm central.
