Webinar: Conservation-production trade-offs

Finding balance for agronomic decision-making

May 15, 2025

> Join us on Tuesday, May 20, 2025 at 11 am Central for the webinar, "Conservation-Production Trade-offs: Finding Balance for Agronomic Decision-Making." The webinar will explore the intersection of conservation, profitability, and the social dynamics of sustainable farming.

Join us on Tuesday, May 20, 2025 at 11 am Central for the webinar, "Conservation-Production Trade-offs: Finding Balance for Agronomic Decision-Making."

The webinar will explore the intersection of conservation, profitability, and the social dynamics of sustainable farming. This discussion will cover the trade-offs between system productivity and soil health, the role of relationships and community in conservation adoption, and how research can inform practical solutions for farmers.

Speakers

Dr. Joseph Burke, Assistant Professor, Cropping System Agronomy, Texas A&M AgriLife
Patricia Marie Cordero-Irizarry, Doctoral Candidate, Agricultural & Extension Education, Mississippi State University

CEUs

CCA/CPAg: 1.0 Sustainability

CPSS/CPSC: 1.0 Professional Meetings

Price

Members/Certified professionals: Free

Non-members: $65

Registration for the webinar includes access to the live webinar and a link to a recording of the webinar.
