Upcoming webinars in June 2025

May 27, 2025

We have some great webinars coming up in June. They are free to certified professionals and ASA, CSSA, SSSA members. Gain 1 CEU for each webinar!

Computational Design of Changing Cropping Systems

Date: Tuesday, June 10, 2025

Time: 1:00–2:00 pm central

This webinar explores how computational design is transforming agriculture by integrating data-driven systems with crop science to proactively shape farming systems rather than just reacting to challenges.

Speaker: Dr. Michael Kantar, Associate Professor at the University of Hawai'i at Manoa
